OUTDOOR LAB

2018

Outdoor Lab at Camp Eden provides a quality, creation-based outdoor education program for Christian schools and home schools.

SPEAKER - BRIAN CATALUCCI

Brian grew up in a Christian home but attended public schools that taught Darwinian evolution as man's beginnings. In his early forties, he began to question where information came from. His study caused Brian to believe there had to be a Creator God through whom all the information in the universe came into being. He found Him in the Lord Jesus

Christ. He is presently an adjunct speaker for Answers in Genesis on a variety of topics, including Genesis, biblical creation, science, Christian apologetics, and the inerrancy of Scripture

ADVENTURE - AVID 4 ADVENTURE

Every solid Outdoor Education program includes an element of adventure. We don't just want to teach about God's Creation, but let kids spend time out in it.

Avid 4 Adventure runs camps and school programs designed to get kids active outdoors. They specialize in teaching elementary students safety, fun, and skills in outdoor pursuits like biking, paddling, and climbing. We're glad to partner with them to bring your students quality adventure education at Camp Eden.

EDUCATION

Camp Eden has been running Outdoor Lab for almost 30 years. In that time, we've developed relationships with some of the best teachers we can find. Our educators combine years of classroom experience, thorough knowledge of their topics, and a love for kids in a way few others can match.

Classes in have included dinosaurs in the Bible, astronomy, studies of insects, watersheds and flooding, meteorology, zoology, aerodynamics, and water pressure. Classes are built to be interactive, combining teaching that is auditory, visual, and tactile.

We're confident that every student who attends Outdoor Lab will leave having learned something new.

REGISTRATION

Outdoor Lab is well-suited for Christian schools and home-school groups. If you're interested in registering your students for Outdoor Lab at Camp Eden, please contact the camp office for registration forms for your group.
